PROFESSIONAL SUMMARY

Computer Engineering student (B.Tech) with hands-on experience in Python, software development, databases, AI and full-stack project development. Built practical applications across voting, rental, retail, agriculture, climate-risk prediction and recycling domains, taking projects from concept and data sourcing through implementation and deployment. Seeking an internship to apply technical skills and gain industry experience.

EDUCATION

Jagadambha College of Engineering & Technology, Yavatmal 2024–2028
B.Tech – Computer Engineering | 3rd Year, 5th Semester | CGPA: 7.9 (2nd Year)
HSC – Rural Institute, Amravati | 12th Percentage: 60.33%
SSC – Shri Ganeshdas Rathii Vidyalaya, Amravati | 10th Percentage: 73.60%

TECHNICAL SKILLS

Programming: Python, C, C++, Java
Web Technologies: HTML, CSS, JavaScript, React
Database: MySQL
Frameworks / AI: FastAPI, TensorFlow
Tools / Platforms: Git, GitHub, VS Code, Mapbox

PROJECTS

- Voting Portal** 2025
- Web-based student voting portal with user and administrator functions to manage voting, vote records and results, built on practical database concepts.
- Rentogo** 2026
- Rental platform for discovering homes and rooms, with structured property listings and interfaces for browsing and viewing property details.
- Smart Store Management System** 2026
- Store management application for organizing products, inventory and customer records, applying database concepts to store, retrieve and manage data.
- AI Climate Twin India — Climate Risk Prediction Platform** 2026
- Full-stack platform predicting rainfall, heatwave and flood risk using IMD, NASA POWER, ERA5 and ISRO datasets; TensorFlow models, FastAPI backend, React frontend and Mapbox geospatial visualization; owned from data sourcing to deployment.
- KrushScan** 2026
- Agriculture-focused digital platform providing crop information, farming guidance, market information and important alerts through a simple, accessible interface for farmers.
- Kabadiwala Connect (SIH26229)** 2026
- Formal–informal recycling chain platform connecting households, waste collectors and authorized recyclers, with a pickup marketplace featuring transparent pricing, digital payments, collector identity and traceability; prepared a 6-slide pitch deck for the Smart India Hackathon 2026 Software Edition evaluation round.

CERTIFICATIONS & PROGRAMS

IBM SkillsBuild – Technical Certification | ISRO – Space Technology Program | OpenAI – AI Development Certification | TCS – Professional Certification | Deloitte – Career Readiness Program | Google Ads – Platform Certification | AI Bootcamp – Applied AI Certification | Multiple Hackathon & Entrepreneurship Program Certificates (15+ total)

CAREER INTERESTS

Python Development | Software Development | Web Development | Full-Stack Development

ADDITIONAL INFORMATION

Internship Availability: Open to paid or unpaid opportunities | **Work Preference:** Remote or Offline | **Duration:** Flexible (1–6 months)
